JF Hose is a specialist manufacturer of large bore custom designed rubber hose assemblies for marine, defence and heavy industry.

Environmental policy

JF Hose & Couplings Limited – Large bore hose division operates from a single site in the United Kingdom at Leyland, Lancashire. We are committed to achieving excellence in environmental performance and reducing the environmental impact of our operations and are committed to:

- Complying as a minimum with all relevant environmental legislation.
- Continuously improve our environmental performance and integrate recognised environmental management best practice into our business operations.
- Reducing our consumption of resources and improve the efficient use of those resources.
- Prevent pollution by avoiding or minimizing emissions to air, land and water whilst conducting our activities.
- Manage waste generated from our business operations according to the principles of reduction, re-use and recycling.
- Promoting awareness, encouraging participation and training employees in environmental matters.
- Giving due consideration to environmental issues and energy performance in the acquisition, design, refurbishment, location and use of buildings.
- Including environmental considerations in decision-making processes.
- Ensuring that this policy is available to customers and the general public.
